

Sweeper Attachment

Sweeper Attachments - Forklifts made by AUSA, provide great functionality and are well known for their compact, highly modular and ergonomic design. They provide stability and versatility while handling difficult or really heavy loads on the job location, while being really safe to drive. With respect to different lift trucks, AUSA models have a great diameter of their wheels which helps to guarantee favorable load suspension in the cab and in the forks. This allows the forklift to produce an optimal working productivity over rough and variable surfaces.

The company headquarters for AUSA are situated in Manresa, Spain which is in the province of Barcelona's interior. The chief manufacturing facility is likewise at this location and holds a total surface area of around 64,000 square meters. AUSA has subsidiaries located in the China, UK, Germany, Madrid, France and Florida. The company exports over sixty percent of the machines they producer and advertises its goods all through 225 distributors all around seventy countries.

Each of the AUSA forklifts is available equipped along with an automatic hydrostatic transmission. This provides accuracy of movement and automatic braking in deceleration of the forklift which gives this particular equipment an extra level of productivity and safety. The hydrostatic transmission enables the person operating it to rapidly adapt to the lift truck which is vital if the load is really not easy to handle and whenever terrain situations are difficult.

AUSA forklifts provide a special cabin design like no other obtainable. It is frontal folded so as to make it a lot easier to access for periodical maintenance. These highly modular cabins also come in soundproof closed, semi-closed or open. For northern weather conditions heated cabs are a choice, and, air conditioning is integrated in a rear post of the cabin. A wide range of tire widths, grips and attachments are also available so as to fit any of the lift truck units.

AUSA is one of the world leaders in compact equipment, specializing not only in rough terrain lift trucks but even urban sweepers, tool carrier vehicles and site dumpers. With sales and service all over seventy nations within 5 continents and more than 200 sales depots all over the globe, AUSA is an industry leader.
