

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how tedious it would really be to tidy up your house after having a big party, with no help from cleaning machines. Before, the time upholstery and carpets had the dirt beat out of them by hand; cleaning cloths, brushes and brooms were the leading cleaning materials back then.

The man who established Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who liked to work on electrical motors. After establishing his business in 1906, he started to produce motors to drive coffee grinders, fans, machine tools and drills. Mr. Fisker's vision from the beginning was to own an international company selling products internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning business. Mr. Fisker invented an amazing, ground breaking vacuum cleaner that could be operated by one individual because it only weighed 17.5 kilos! This invention came in a time where numerous cleaning machines were massive and required at least 4 operators, thus, the Nilfisk C1 transformed everything and developed the way we clean forever. The genius behind these very first cleaning machines remains unparalleled. Cleaning equipment provide a brilliant solution to an ongoing crisis; things get dirty and must be cleaned regularly, without a lot of effort.

Slowly, the company Nilfisk-Advance grew throughout the years. During the the early part of the 1980's the business developed fast when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance forward within the business, aspiring to be an active worldwide player in producing professional cleaning equipment. Nilfisk-Advance is now represented in all parts of the world due to gradually obtaining a lot of smaller companies in order to develop their product portfolio and presence in new markets. They are really proud to offer a variety of cleaning solutions to meet each requirement.
